### CRFT 2022 Grüner Veltliner

#### The Arranmore Vineyard - Peramangk Country - Piccadilly Valley

Made by wife-and-husband winemakers Candice Helbig and Frewin Ries, CRFT Wines specialises in small-batch, single-vineyard wines.

Each CRFT wine is made with grapes picked from a single vineyard, and every bottle becomes a reflection of place – a story of site, soil and season.

‘Arranmore’ is our organic vineyard, winery and home in the Adelaide Hills - all wines produced from this vineyard are NASAA Certified Organic from the 2019 vintage onwards.

#### About the wine

With only 8 rows of Grüner planted at our place, each vintage is produced in a very limited amount.

The cold 2021 Spring caused late and extended flowering into December. This together with windy conditions resulted in hen and chicken throughout the crop, reducing the overall yield for 2022.

...

The nose has honeysuckle, white peach, white pear and bee’s wax. The palate shows wet slate minerality, nutmeg, textural layers and a nougat finish.

Drink 2022 to 2030+

Serve 9-11C, cooler in warm weather.

13.5% alc/vol

Vegan friendly. RRP \$31

#### Winemaking

Hand-made at CRFT winery in Carey Gully. 100% NASAA Certified Organic Piccadilly Valley Grüner Veltliner hand-picked on March 30. Whole-bunch pressed to tank to begin wild fermentation, then transferred into older seasoned (neutral) French barrriques for barrel fermentation on full solids. 100% wild yeast ferment. Full wild MLF. Occasional lees stirring. 12 weeks in oak. Bottled July 2021.

#### Arranmore Vineyard

Estate-owned, managed and farmed, the 5-acre Arranmore Vineyard has been farmed organically since Frewin & Candice took ownership in January 2016. NASAA Certified Organic since February 2019.

- Location: Carey Gully - Peramangk Country - Adelaide Hills
- Elevation: 550 meters
- Aspect: East facing
- Planted: Grafted on 22yo Sauvignon Blanc vines, winter 2017. Cuttings from Geoff Hardy’s K1 vineyard Grüner.
- Clone: Elite
- Map: -34.969564, 138.760102
- Soil: Dark loam topsoil over clay subsoil, with shale and ironstone bedrock.
